

Skaneateles Conservation Area Advisory Committee meeting

Monday, March 16, 2015, 7 PM, Skaneateles Town Hall

Agenda:

- Jessi Lyons from Cornell Cooperative Extension will discuss Cornell's plans to develop insectaries in the area for breeding insects that will act as a biological control for the Hemlock Woolly Adelgid (HWA).
- Discuss our new role for the Fishing Derby. Gene LaForte will represent the parks department to discuss their role in organizing the event.
- Dave Card (Marcellus Fire Department Chief) may present items from last month's agenda if he is available. If not we can discuss some of his concerns in advance.
- Greg McGee has agreed to help guide the HGCNY chapter of WildOnes in a tour of the Skaneateles Conservation Area on Saturday, June 13 at 10am. The tour will highlight our invasive vegetation and possible solutions as well as Greg's Wildflower Restoration Project near Guppy Falls.
